

LAKE JOVITA

ADVISORY BOARD

PRESIDENT'S REPORT

The 9 HoleGlow Ball event on March 3rd was a huge success with a sold out field. We are looking at ways to expand the field the next time Glow Ball is scheduled.

Our focus now turns to tournament season, primarily the Men's and Ladies Member Guest tournaments. We want to present the the club in the best possible light. Both tournaments look to be a great deal of fun with the ladies adopting an Olympic theme while the men are bringing back the Don Juceam Orchestra one night and featuring a Casino Night the next. In preparation for the tournaments we need to:

- Dress up the driving range, perhaps growing the higher around the target areas to provide better definition. Also would like to see the upper tier of the public range and the members range closed a couple of weeks prior to the tournament to let the grass fill in the beat up areas.
- We have talked of ordering additional rakes for the bunkers, can we get these ordered?
- We also were to get new tee box signs, what is the status?
- Areas in front of the clubhouse and around the scoreboard need to be landscaped.
- What can be done to improve the density of the fairways?

GENERAL MANAGER'S REPORT

- Chef Wally has resigned. We have entered into a short term agreement with Michael Lopez' company to manage the day to day kitchen operations and oversee special events. Contracting with an outside company to manage kitchen operations is a new concept for the club. We agreed to this arrangement on a test basis to see how it works out and a large part of our reasoning was the familiarity Michael Lopez has with our kitchen and clientele.
- Grill room chairs have been ordered and are scheduled for delivery around mid-April. The chairs were custom built. The chairs in the grill room will have arms while the chairs in the private grill room will not have arms.
- The pavers for the north bathroom have arrived and will be installed soon.
- Tony will be working on building up the density of the fairways.

- We will be closing the top tier of the driving range as well as the members range for a period of time prior to the Member Guest tournaments to let them heal.
- In addition to our club events we are going to very busy through the end of May with several outside tournaments booked, including; 1) Conference USA championship, 2) Swing Thought Tour, 3) BCN Gators, 4) Tampa General Hospital, 5) Leukemia Foundation, 6) Dade City Chamber of Commerce, and 7) Tug Valor tournament.
- We will be landscaping around the scoreboard, nothing fancy but will still be an improvement.
- We will have a designated area on the scoreboard during the Member-Member and Member Guest for the Jovita Cup Series, since both tournaments include a "tournament within a tournament" for the Jovita Cup players.
- The club would like to feature one big party a month for the members.
- Discussions are still ongoing with St. Leo regarding building a short range practice facility.

COMMITTEE REPORTS

Golf Committee

- The Member Member was a lot of fun and went well. Thanks to everyone that participated.

Greens Committee

- As you may have noticed recently the pin placements have been in unusual locations, mostly at the edges of the greens. This is by design to keep traffic away from the main part of the greens until we get more into the growing season.
- Additional bunker rakes have been ordered.
- The family tees over the past few months have moved from their original locations. The committee toured both courses, placed the tees in their permanent locations and marked them on the course so, hopefully, they will remain in tact.

House Committee

- We continue to have a need for directional signs inside the clubhouse directing public traffic to the pro shop, grill, etc.
- Kitchen hours on Monday's have been extended to 5:30PM and on Saturday's to 7:30PM.

Sport

- Fencing around the pool is in need of bleaching.
- Fencing around the tennis courts needs to be repaired so balls do not go under the fence.
- The fitness center is supposed to get a deep cleaning each week and that doesn't seem to be happening.
- The alcove at the pool is going to be enclosed and used for storage.
- The spin room needs to be finished with some paint and trim, otherwise looks good.

- There are some new umbrellas at the pool. We need new table tops as our current tables are in bad shape.
- Some lighting at the tennis courts need to be replaced.
